

Routine Dental services are supplemental benefits offered on many UnitedHealthcare Medicare Advantage plans. They cover additional services not covered by Original Medicare. These benefits are offered in addition to medical benefits to better meet the needs of members. The main vendor for routine Dental is UnitedHealthcare Dental. Preferred Care Partners and Medica utilize Solstice Dental as their vendor in certain parts of Florida.

What does this benefit offer members?

- Access to dental care and services not covered by Original Medicare
- Value factor as it saves members money to have these benefits included as part of their Medicare Advantage plan
- Choice from the robust dental provider network
- \$0 copayment on covered routine cleanings, exams, x-rays, and fluoride.
- Many plans offer Preventive and Diagnostic services such as exams, cleanings and x-rays. There are also plans that offer comprehensive dental services including fillings, crowns, bridges, root canals, extractions, periodontal services, or dentures.
- Annual maximums range from \$500-\$3500

How does the benefit work?

- Members can locate a provider on the Find A Provider Website [UHC Medicare Dentist Search.com](https://www.uhcmedicare.com/FindAProvider)
- Member makes an appointment and brings their ID card to the dental office to verify eligibility and benefits
- A comprehensive list of covered dental services can be accessed through the plan specific Evidence of Coverage (EOC), including frequency limitations and exclusions.
- Members are encouraged to discuss treatment plan options, risks, benefits, and fees with their dentist prior to receiving services.
- Further questions are supported by Medicare and Retirement main Member Services. Escalated questions are transferred to and supported by UnitedHealthcare Dental.

Where is the benefit available?

- Varies by plan - check the EOC for specific dental benefits by plan.
